Zebra has the most feature-rich offering of any mobile printer in the market. This unit is one of the few Thermal Transfer Mobile printing units available. This rugged, lightweight printer has a rubber infused plastic over-mold design for tough conditions, it is damage-resistant to multiple drops of up to five feet. Its weight of three pounds or less allows for effortless mobility. With center-loading media, smart battery monitoring and an LCD display, they provide user-friendly options to keep your business moving.

This integrated solution makes mobile workers' jobs easier and more productive. They can use the P4T Mobile Printer with its shoulder strap for easy movement from location to location and print labels. The printer will be valuable in a wide variety of applications such as; inventory pick tickets, shelf labeling, product identification, work in-process tickets, etc., Rather than print in a remote location now you can save time with mobile on-demand printing.

As the only mobile printer to meet the stringent IP54 dust and water resistance rating, the P4T can withstand the harsh demands of a number of Route Accounting and Field Service printing applications; Including: Invoices, Delivery Receipts, Service Estimates, Sales Orders, and Inventory Management. *If you would like to see a complete manufacturer specification sheet or wish to receive a demonstration model, please call A Bar Code Business, Inc. at 800-644-0077.*
